

CompassASTRO

Enhance Safety and Reduce Response Time

Revolutionize your fleet management with our advanced GPS tracking software, expertly integrated with the robust capabilities of Motorola ASTRO radios. With this seamless integration, your team benefits from enhanced communication, ensuring constant connectivity and streamlined coordination. Our platform doesn't just track radios in real-time – it brings you insightful analytics and adaptable reporting, all while leveraging the reliability of Motorola ASTRO radios to keep your team in sync.

- ✓ Improve officer safety
- ✓ Reduce response time
- ✓ Post event learning
- ✓ Reduced organization risk
- ✓ Recovery of lost LMR equipment
