

Powered by CompassCom® for Tactical Off-Network Location Awareness

Give field teams real-time visibility, emergency alerting, and mission-ready coordination in remote, disconnected, and high-risk environments.

CompassRespond combines CompassCom's GIS, GPS, and mission-critical field operations expertise to deliver real-time off-network location awareness for law enforcement, search and rescue, wildland fire, emergency response, and tactical teams. It helps organizations stay connected, coordinated, and safer when cellular or internet infrastructure cannot be relied on.

Real-Time Team Visibility

Track personnel and radio users on a map to improve awareness, coordination, and accountability during active missions.

Off-Network Mission Support

Maintain situational awareness in remote, tactical, and infrastructure-limited environments without relying on cellular or internet coverage.

Emergency Alerting & Response

See emergency events, last known locations, and on-demand radio positions so teams can respond faster when seconds matter.

Rugged Rapid Deployment

Deploy quickly with a portable, self-contained field solution designed for demanding operational conditions.

Built for Your Mission

LAW ENFORCEMENT & TACTICAL TEAMS

Support coordinated response, perimeter operations, and field visibility during high-risk incidents.

SEARCH & RESCUE

Find team members faster and maintain location awareness in difficult terrain and time-critical missions.

WILDLAND FIRE & DISASTER RESPONSE

Extend operational visibility where infrastructure is limited, damaged, or unavailable.

INCIDENT COMMAND & FIELD OPERATIONS

Maintain visibility of teams, assets, and response activity during temporary, remote, or high-risk field operations.

Why CompassCom?

- ✓ 30+ years of GIS, GPS, and field operations expertise
- ✓ Proven real-time location awareness for public safety and mission-critical operations
- ✓ Interoperability with CompassTrac® Enterprise and TAK environments
- ✓ Portable, off-network design built for rapid deployment
- ✓ Trusted partner focused on safety, coordination, and mission success.
