

Cloud-Based AVL for Secure Municipal Operations

Give your team real-time visibility into vehicles, personnel, and field assets with CompassCom's secure SaaS location awareness platform—hosted in Microsoft Azure and built for public sector operations.

Real-Time Fleet Visibility

See vehicles, crews, and field assets on a live operational map so supervisors, dispatchers, and operations teams can make faster, more informed decisions.

Secure SaaS Deployment

Reduce internal IT workload with a cloud-hosted platform backed by Microsoft Azure security, system monitoring, and CompassCom-managed updates.

GIS-Ready Operations

Use location intelligence with Esri-based workflows to support maps, dashboards, alerts, reporting, and operational decision-making.

Smarter Public Works Performance

Improve safety, efficiency, accountability, and sustainability across municipal fleet and field operations with real-time insight, alerts, reporting, and GIS-ready operational intelligence.

IMPROVE SAFETY

INCREASE EFFICIENCY

STRENGTHEN ACCOUNTABILITY

ADVANCE SUSTAINABILITY

BUILT FOR YOUR MISSION

MUNICIPAL FLEETS

Track city vehicles, crews, and equipment in real time to improve visibility, coordination, and daily operational control.

PUBLIC WORKS

Support snow operations, road maintenance, sanitation, parks, utilities, and field services with live location awareness.

DEPARTMENTS OF TRANSPORTATION

Improve fleet monitoring, route coordination, response times, and reporting across large service areas.

GIS & OPERATIONS TEAMS

Connect location data to maps, dashboards, alerts, and reports that help teams work from a shared operational picture.

WHY COMPASSCOM?

- ✓ 30+ years of GPS, GIS, and field operations expertise
- ✓ Secure SaaS platform hosted in Microsoft Azure
- ✓ Reduces IT overhead with CompassCom-managed infrastructure
- ✓ Standard product upgrades included
- ✓ 24/7 alerting to notify CompassCom of system issues
- ✓ Esri-based workflows for GIS-driven operations
- ✓ Real-time alerts, historical reporting, and operational dashboards
- ✓ Helps improve safety, efficiency, accountability, and sustainability across public sector operations
- ✓ Proven solution for public sector fleet and field operations
